government, by Mr. D. J. Liles of Bedford.

THE BREWERY.

Its Products Growing in Favor Daily. Prospects for a Maltery.

It speaks well for the loyalty of Fort Worth people to home enterprise that they are giving such a hearty support to local manufacturing concerns. The beer made by the brewery is now drunk here almost to the exclusion of outside braws. No little of this is due to the excellent quality of the beer. The brewery has given employment to many a man dur-ing the dull summer, and is now paying out thousands of dollars n this city. Cask after cask of bottled beer and scores upon scores of kegs of beer were sent out yesterday. It will be but a short time until this institution will make more beer than any brewing company in the beer than any brewing company in the Southwest. The company is receiving letters daily from farmers in regard to plant-ieg barley, and there is no longer any doubt that all the barley meessary to run a mairery can be had here next year.

## MINNTE BUTTS, MAYDELLE DRAKE, HIGHWAY ROBBERY.

A Stranger Explores the Mysteries of the Acre and Loses His Wad. Yesterday four denizens of "the acre"

were arrested for the robbery of a man by the name of Jim Gibbs, who struck the city a day or two ago with a pocketful of money He had not been long in the town before he drifted to the above locality, where he made the acquaintance of some of its inhabitants. He was drinking and was soon very drank. He was then drugged, according to the story told, robbed of \$112, hauled out two miles from town and left on the prairie in a stupor till found. The case was reported to the police and they com-menced work on the case, and finally arsted Charles Sage, a white man, Polly Roberts and Lou Davis, two negro women in "the Acre," and James Agnew, the pro-prietor of a saloon on Twelfth street, Officers Scott and Bidaker making the arrest. When the four had been arrested, Officer Sebe Maddox took a turn at pumping the woman Lou Davis, and succeeded in inducing her to tell the whole story and turn state's evidence. According to the tale told by her, chloroform was used to put Gibbs to sleep, and this was procured from a drug store. After this she said that a back was bired, the robbed man placed inside, and he was driven out a distance from the city and left, After this the principals in the robbery di-vided the money, but the woman says she got left on the divy. She also implicates one or two others who are well connected in the city.

## He Wants a Bout,

THE GAZETTE is in receipt of the following communication from Paul J. Pitzlin of Vernon, Tex. From the contents of the letter it will be seen that Pitzlin offers to right any middle-weight in Texas for a purse of \$3000 and a side bet of \$1000. Below is the letter:

VERNON, TEX., Oct. 1, 1891.

Editor Gazette. DEAR SIR-Will you please state in your DEAR SIR—Will you please state in your valuable paper that I am dead anxious to have another go, but I would like to see money in it. I am willing to bet that I can defeat any middle-weight in Texas, and I don't care where he comes from. A purse of not less than \$2000 and a side bet of \$1000 would suit me. Let any club offer me a match and I will surely be on hand, though I had the misfortune of breaking both my bands on Upham, put they are all right again, and I want to try my luck once more. Please state the above and oblige, respectfully. spectfully, P. J. PITZLIN.

### Nelson and Allerton. The American Horse Breeder has the following to say of the merits of the perform-

ances of Nelson and Alierton:

While it is true that Allerton's record is faster than Nelson's, every candid, unprejudiced horseman must admit that the 2:10 of Nelson, considering the conditions under which it was made, is a more creditable mark than the 2:0014 of the great son of Jaybird. Nelson's record was made over a regulation track. His driver was some thirty pounds overweight. Allerson's rec-ord was obtained over a kite-shaped track, built upon the most favorable soil that can be found, and is admitted to be from to four seconds faster than a good mile track of the regulation pattern. It is true that Nelson over the same course, only succeeded in trotting in 2:10%. This signifies nothing, however, as the horse might not have been in condition to go so fasta mile as he was in Michigan. We do not wish to disparage the performance of Allerton, but until he to performance of Alierton, out until he trots a mile in 2:10, oulling 180 pounds weight over a regulation track, he cannot be rated the equal in speed to the Mainebred son of Young Roffe (2:214). No doubt Allerton is as game a trotting stallion as ever took the word, and it is not improbable that he can beat the New England idol in a reacher. in a race, but he has never yet given so meritorious a performance as Nelson's mile in 2:10 over the Michigan regulation track, pulling a 180-pound driver.

Topics of the Turf.

Nancy Hanks reduced her record to 2:00¼ at Cambridge City, Ind., on the 24th instant. The time by quarters was :32¼, :31¼, :32, :33¼. HILLSBORO, HILL COUNTY. Oct. 3 .- Every day's report of the cotton crop becomes more favorable; where it was thought a month since that it would take three acres to produce a bale, is turning out one-half bale to the acre. The general complaint is the scarcity of hands to pick it. There are hundreds of acres of it going to waste that not a bale has been picked out.
